

CLEAN TALK

NEW GM TAKES THE HELM AT ADVANCE

INTRODUCING HELEN THOMPSON-CARTER

– our new General Manager

Helen has joined Advance International at an important time for the company and brings with her skills that we will see increasingly in demand as we reinforce our leadership position as a total cleaning solutions provider.

Advance International has always believed that providing great cleaning products is only half of the story. Training and technical support for our customers is also vitally important if we are to help them respond to the market's increasing demand for specialist skills.

To meet this need Advance International's Managing Director, Jiwa Nadan, will concentrate on skills training and technological innovation, while Helen concentrates on service delivery, marketing and business development. These are exciting times for New Zealand's leading cleaning solutions provider, and we're looking forward to exceeding your expectations in 2011 and beyond.

“At Advance we are committed to making a difference.”

What makes Advance so different?

At Advance we are committed to making a difference, that's why we listen to what you need and act accordingly. We're constantly improving our products and services, including innovations in sustainability.

We do this because our core purpose is to deliver world class, sustainable cleaning and hygiene solutions. So if you want high quality products and industry leading expertise talk to **the company that has the passion to get it right!**
