

Advance Nature Total Washroom Cleaner & Maintainer

Advance Nature Total Washroom Cleaner & Maintainer cuts through soap scum and removes hard water, rust and lime deposits. Powerful, yet Environmental Choice New Zealand Licensed, Advance Nature Total Washroom Cleaner & Maintainer is perfect for attacking bathroom grime, thoroughly cleaning toilets and maintaining a sparkling and fresh washroom.

Advance Nature Total Washroom Cleaner & Maintainer is an aqueous and viscous bathroom cleaner composition, designed to be effective in removing lime soap residues and hard water salt deposits from sinks, bathtubs, shower enclosures and metal surfaces, and maintaining toilet bowl cleanliness when incrementally added to the flush water. The foaming characteristics are such that they drain rapidly on vertical surfaces; cling to the walls of the bowl, maintaining sufficient contact time to promote penetration of the cleaning composition for dispersing and emulsifying dislodged soil.

Advance Nature Total Washroom Cleaner & Maintainer is a micro emulsion formulation comprising naturally and organically derived components.

Features and Benefits

-  Proven Cleaning Power*
-  Environmental Choice New Zealand Licensed
-  NZFSA Approved C 32 (all animal products except dairy)
-  Biodegradable**
-  Proudly NZ Made

* Advance Nature Total Washroom Cleaner & Maintainer has been tested following ASTM D 4488-95 (American Society for Testing and Materials) Standard Guide for Testing Cleaning Performance for Products.
** All ingredients considered readily biodegradable as stated in the Detergent Ingredient Database (DID List) according to OECD guidelines and based on approval by the European Commission.

Environmental Description

Advance Nature Total Washroom Cleaner & Maintainer is the latest in environmentally preferable cleaning detergents, formulated to provide excellent performance with minimal impact on the environment.

Advance Nature Washroom & Maintainer is highly biodegradable, phosphate free, uses renewable plant derived surfactants, and conforms with all statutory environmental requirements

Using the latest environmental criteria, Advance Nature Total Washroom Cleaner & Maintainer does not contain EDTA, NTA, DTPA, reactive chlorine, quaternary, alkyl phenol ethoxylate, toxic, harmful or ecologically suspect ingredients

Advance Nature containers will be cleaned and reused if returned to Advance International Cleaning System, significantly reducing plastic usage and waste. The containers can also

Directions

Toilets & Urinals:

Apply undiluted using a squeeze bottle, then scrub or brush clean and rinse. When cleaning urinals, be sure to rinse with water thoroughly within 3 minutes of application.

Shower & Bath Soap Scum:

Apply undiluted to shower and bath. Allow a few minutes to activate, then scrub with scourer pad and rinse off.

Taps, Sinks, Bench Tops & Walls:

Dilute 100ml Total Washroom Cleaner & Maintainer per litre of water from cold tap (5 caps per litre bottle). Either squirt, trigger spray or foam gun apply. Sponge or mop the surface to remove build up and brush grouting if necessary. Rinse and wipe dry.

Floors:

Dilute 200ml Total Washroom Cleaner & Maintainer to 10 litres cold water in bucket (4/5 cup in a 10L bucket). General mopping on tiled floors will leave a sparkling clean, shiny surface with whiter and brighter grouting.

It is recommended that gloves be worn when using this product.

All cleaners have an effect on the environment. Always use the correct dose for maximum efficiency and minimum environmental impact.

Chemical Data

Physical description

| | |
|-------------------------|----------------------|
| Appearance | Green viscous liquid |
| Odour | Citrus |
| pH | 2.5 +/- 0.5 |
| Viscosity | 900 cP |
| Solidity | 28% |
| Specific gravity | 1.03 |
| Boiling point | 100 c |

Storage and transportation

Advance Nature Washroom & Maintainer is not classified as a Dangerous Goods by the criteria of Dangerous Goods Code for road and rail transport, and can be stored in sealed original containers for at least one year.

SAFETY DATA SHEET

1. PRODUCT AND COMPANY IDENTIFICATION

| | |
|--------------------------------|---|
| Product Name; | Advance Nature Total Washroom Cleaner & Maintainer |
| Recommended use; | Cuts through soap scum, remove hard water, rust and lime deposits, made from renewable plant derived materials, highly concentrated, biodegradable and MAF approved |
| Company Details; | Advance International Cleaning Systems (NZ) Ltd |
| Address; | 663 Great South Road, Penrose Auckland. New Zealand |
| Telephone Number; | +64 9 525 3792 |
| Emergency Telephone No. | National Poison Information Centre 0800 764 766 |
| Date of Preparation | 1/10/2010 |

2. HAZARD IDENTIFICATION

HSNO Hazard Classification: 6.1E, 6.3A, 8.3A

| Code: | Hazard Statement |
|--------------|---------------------------|
| HH15 | Causes skin irritation |
| HH17 | Causes serious eye damage |

Prevention Statement:

- Wash thoroughly after handling
- Wear protective gloves
- Wear eye/face protection

3. COMPOSITION/INFORMATION ON INGREDIENTS

| Ingredient | CAS # | Concentration % |
|-----------------------|--------------|------------------------|
| Citric acid | 68-04-2 | <10 |
| Oxygenated solvent | | <3 |
| Anionic surfactant | | >5 |
| Non- ionic surfactant | | <5 |
| Amphoteric surfactant | | <5 |
| Sodium chloride | 7647-14-5 | <10 |
| Water | 7732-18-5 | level |

4. FIRST AID MEASURES

Ingestion

Immediately rinse mouth with water. If swallowed do not induce vomiting. Give water to drink. Seek immediate medical attention.

Eye Contact

Immediately flush eyes with large amounts of water for at least 15 minutes while holding eyelids open. Transport to the nearest medical facility for additional treatment.

Skin Contact

Remove contaminated clothing. Flush exposed area with water and follow by washing with soap if available.

Inhalation

Remove the effected person out to a ventilated area. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek medical attention.

5. FIRE FIGHTING MEASURES

Extinguishing Media

Use dry chemical powder, foam, polymer foam, water spray or fog type extinguishers. Water may be ineffective on fire. However, water spray may be used to extinguish fires and to absorb heat. Keep containers cool and protect exposed material. If a leak or spill has not ignited, water spray may be used to flush spills away from exposures.

Hazards from combustion products;

Not combustible. However, following evaporation of aqueous component, residual material can burn if ignited. While burning, it will emit toxic fumes including carbon monoxide and carbon dioxide.

Precautions for fire fighters and special protective equipment;

Fire fighters to wear self contained breathing apparatus if risk of exposure to vapour or products of combustion as well as structural fire fighter's uniform.

Hazachem code; None Assigned.

6. ACCIDENTAL RELEASE MEASURES

Emergency Precautions

Personnel involved in the clean up should wear full protective clothing. Evacuate all unnecessary personnel. Increase ventilation. Avoid walking through spilled product as it may be slippery. Stop leak if safe to do so. Do not let product reach drain or waterways; advise the Environmental Protection Authority or your local Waste Management. Use clean, non-sparking tools and equipment.

Methods and Materials for Containment and Clean Up

Soak up spilled product using absorbent, non-combustible material such as sand or soil. Avoid using sawdust or cellulose. When saturated, collect material into suitable, labelled, dry, sealable containers and hold for safe disposal. Once pick-up is complete, flush spill site with plenty of water to eliminate any residue. Hold contaminated water for treatment/disposal.

7. HANDLING AND STORAGE

Handling

Wash thoroughly after handling. Use only in a well ventilated area. Avoid contact with eyes, skin and clothing. Empty containers retain product and residue (liquid or vapour), and can be dangerous. Keep container tightly closed. Always wash hands before smoking, eating or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use. Do not dispose of material to sewers or waterways.

Storage

Store in a tightly closed container. Keep from contact with oxidizing materials. Store in cool, dry, well ventilated area away from incompatible substances. Keep containers closed at all times, check regularly for leak.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Standards

No Tolerable Exposure Limit (TEL) Workplace Exposure Standards (WES) has been set by the Occupational Safety and Health Service, NZ Department of Labour for this substance.

Biological limit values

None established

Engineering Controls

The use of local exhaust ventilation is recommended to control process emissions near the sources. Laboratory samples should be handled in a fume hood. Provide mechanical ventilation of confined spaces. Use explosion proof ventilation equipment

Personal Protective equipment

Respiratory Protection;

Where concentration in air may exceed the limits described in the National Exposure Standards, it is recommended to use a half face filter mask to protect from overexposure by inhalation. A type "A" filter material is considered suitable for this product.

Eye Protection;

Always use safety glasses or a face shield when handling this product.

Skin/Body Protection;

Always wear long sleeves and long trousers or coveralls, enclosed footwear or safety boots and chemical resistant gloves when manufacturing this product.

9. PHYSICAL AND CHEMICAL PROPERTIES

| | |
|--------------------------|----------------------|
| Appearance; | Green viscous liquid |
| Physical State; | Liquid |
| Odour; | Citrus |
| pH; | 2.5 (+/-) 0.5 |
| Solubility; | soluble in water |
| Vapour Density; | Not applicable |
| Boiling point; | >100 deg |
| Freezing Point; | Not applicable |
| Ignition Point; | Not applicable |
| Flash Point; | Not applicable |
| Specific Gravity; | 1.03 |
| Vapour pressure; | Not applicable |
| % Volatilities | |

10. STABILITY AND REACTIVITY

Chemical Stability: Stable at room temperature and pressure.

| | |
|---------------------------------|---|
| Conditions to avoid: | Avoid excessive heat, direct sunlight, moisture, high temperatures. |
| Incompatible Materials: | Incompatible with oxidizing agents, acidic agents, including acidic clays, and sources of ignition. |
| Hazardous decomposition: | When involved in a fire, this product will generate carbon monoxide |
| Hazardous reactions: | Oxidizing agents, mineral acids, halogenated organic compounds. |

11. TOXICOLOGICAL INFORMATION

No adverse health effects expected if the product is handled in accordance with the safety data sheet. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Acute Effects

Ingestion

Small amounts of liquid aspirated into lungs during ingestion, or from vomiting. Ingestion of large amounts of this product will result in headaches, nausea, dizziness and tracheal burning.

Eye Contact

This product is irritating to eyes but will not permanently damage eye tissue.

Skin Contact

This product is irritating to skin and may result in dryness and cracking of skin.

Inhalation

Irritating to respiratory tract. Exposure to high concentrations over an extended period of time may result in muscle weakness, tingling in hands and feet, blurred vision, headaches, nausea, loss of appetite, hallucinations and possible loss of consciousness.

12. ECOLOGICAL INFORMATION

Persistence/ degradability the substance is aerobically readily biodegradable and anaerobically biodegradable.

Mobility: No data available for this product.

13. DISPOSAL CONSIDERATIONS

Disposal Methods:

Empty packaging should be taken for recycling, recovery or disposal through a suitably qualified or licensed contractor. Care should be taken to ensure compliance with national and local authorities.

14. TRANSPORT INFORMATION

Road and Rail Transport

Not classified as Dangerous Goods by the criteria of New Zealand Dangerous Goods Code for transport by road and rail

Marine Transport

Not classified as Dangerous Goods by the criteria of international Maritime Dangerous Goods Code for transport by sea.

Air Transport

Not classified as Dangerous Goods by the criteria of international Air Association Dangerous Goods Regulations for transport by air

15. REGULATORY INFORMATION

HSNO Approval No: HSR002526

Group Standard: Cleaning Products (corrosive) Group Standard 2006

HSNO Classification: 6.1E, 6.3A, and 8.3A

16. OTHER INFORMATION

New Zealand National Poison Information Centre: 0800 764 766
