

CARPET MASTER SERIES

Advance International Cleaning Systems is pleased to announce the launch of the **Advance Carpet Master Series**.

Carpet is one of the biggest investments in any building. Advance takes a systems approach to carpet maintenance that works to protect this investment from the day the carpet is laid. The Advance Carpet Master Series will help to ensure you get maximum return from your carpet through both preventative maintenance and stain treatment.

CARPET PRE-SPRAYS & SHAMPOOS

Pre-spraying and shampooing is vital for preventative maintenance on carpet.

5L - P2905
25L - P2925

Typhoon: Heavy Duty Carpet Shampoo. Pre-Spray for New Generation Carpet Fibres
Typhoon Heavy Duty Carpet Shampoo is designed to clean the toughest soil on all carpet fibres. Typhoon is especially effective on new generation carpets. Excellent for use in truck mount carpet cleaning! Typhoon is free rinsing and has built-in softeners to bring back the bounce and resilience to carpets. It uses sustainable surfactant technology and is kind to nature.

5L - P3105
25L - P3125

Purge: Carpet Shampoo & Extraction Concentrate.
Cost-effective concentrated shampoo and cleaner suitable for a range of carpets. Purge is a positive emulsion soil break and dirt emulsifying carpet shampoo, designed for the professional carpet cleaner using wet extraction carpet cleaning equipment. Purge is excellent for truck mount carpet cleaning. It is also suitable for bonnet type cleaning where effective soil release and degreasing is required.

5L - P725
25L - P727

Bombard: Total Carpet Extraction System
A powerful carpet extraction cleaner, traffic lane pre-solubiliser and multipurpose spotter. Can be used on any carpet type and is fast drying and non-browning. Contains antistatic agents.

SPOTTERS

For carpet stain treatment follow the **Advance 4 Step Stain Treatment Process**

500mL - P8101
5L - P8105

ProSpotter: General Purpose Carpet Spot & Stain Remover

ProSpotter is a general purpose spot and stain remover for use on most stain types, including oil-based stains such as salad dressing, body fat, food and drink spills. ProSpotter is fantastic for everyday dirt and as a soil build cleaner on sofas, lounge suites and settees.

500mL - P3001
5L - P3005

Pro Solv: Solvent Spotter. Grease, Ink & Paint Remover

Pro Solv is a solvent spotter for professional use. It removes oily or tar-like stains from carpet and clothing prior to extraction or shampooing. Some inks, most paints, chewing gum and latex carpet adhesive are softened by Pro Solv, allowing them to be scraped up.

500mL - P2701
5L - P2705

Coffee SpotOut: Coffee, Tea, Tannin & Urine Spotter

Specialty product for effective removal of coffee, tea, tannin, berry, red wine, fruit juice, fresh urine stains and water marks in carpet. Coffee SpotOut is a low pH acid spotter, effective in neutralising alkaline spotters such as SpotOut Protein.

500mL - P2601
5L - P2605

SpotOut Protein: Protein & Food Stain Spotter

SpotOut Protein is an effective formulation developed for the removal of food and protein based spots and spills. Its higher pH formulation will remove a range of stains such as butter, milk and cooking fats, general soft drink spills and most household protein-type stains.

500mL - P2501
5L - P2505

Browning Treatment: No rinse, Self Neutralising Carpet Spotter

Formulated to treat browning and watermark stains on carpet and upholstery. It removes most berry stains, mercurochrome and gentian violet dyes. In most cases it helps stop colour runs or bleeding of dyes in fibres that may not be colourfast. Can be used as a final spotter after Coffee SpotOut.

CARPET DEODORISATION

Support your carpet cleaning programme by carpet deodorisation, ensuring a pleasant fragrance.

5L - P775
25L - P777

Odour Out: Carpet Odour Neutraliser

Destroys malodours caused by mildew, vomit, animal urine, bacteria, smoke, cooking and perspiration. Can be used on both natural and synthetic fibres. Non-toxic, fast penetrating and long lasting.

STAIN REMOVER & ODOUR NEUTRALISER

Enzyme boosted stain and odour removal

5L - N165

Nature's Solution: Stain Remover & Odour Neutraliser

Concentrated multi-functional bio-enzymatic cleaner, carpet spotter and deodoriser. This unique product contains multi-strains of bacteria, chelating agents, wetting agents, penetrants and a proprietary odour counteractant system. It is also an excellent stain remover and deodoriser for pet stains, blood, soft drinks, urine and other organic matter.

SPECIALIST PRODUCTS

500mL - P3401
5L - P3405

Foamex: Defoamer concentrate. Foam Breaker

Foamex is a synthetic silicone defoamer, uniquely formulated to break foam. It reduces the damaging effect of foam to electrical components in carpet extraction machinery.

ENVIRONMENTALLY FRIENDLY

5L - P8615

Advance Nature Carpet Shampoo: Pre-Spray & Extraction Concentrate

A highly effective cleaner, emulsifier and degreaser for all carpet fibres when used as pre-spray or extraction solution. Its natural ingredients ensure a safe environment with clean, soft and fresh carpet.

CARPET MASTER SERIES

THE ADVANCE 4 STEP STAIN TREATMENT PROCESS

It is important to remove a carpet spot as soon as possible because once it sets into a stain it is harder to remove. Prompt action usually allows identification of the spill so that an appropriate remover can be used. Old stains are extremely difficult to remove and in many cases can only be lightened.

With prompt action most stains can be treated using a general water based spotter, such as **Advance Pro Spotter**.

Advance General Water Based Spotters:

However, if this is unsuccessful then the **Advance Carpet Master Series 4 Step Stain Treatment Process** can be followed to ensure that the stain is not made worse and that the stain is neutralised when finished.

Pre test for colourfastness on inconspicuous area before use.

THE IMPORTANCE OF RINSING: If any spotter is not rinsed out properly, re-staining can occur due to dirt sticking to residues left in the carpet.

Step 1: CITRA SOLV-IT, PRO SOLV

Solvents have an aggressive action that helps lift tar, chewing gum, some paints, inks and lipsticks. Being water soluble, they will work on wet carpets and will not spread the stain.

Always rinse after use.

Compounded solvent spotters like Citra Solv-It and Pro Solv are far more superior to straight turpentine or kerosene, which tend to leave behind a greasy residue and spread the stain.

Step 2: COFFEE SPOTOUT

A low pH acid spotter designed to assist in the removal of coffee, fruit juices, wine and tannin stains.

Ensure that the stain is rinsed and neutralised with SpotOut Protein after use.

Even if you know the stain is a protein, do not eliminate this step. Acidic spotters act to condition the stain and make it easier to be removed by the next step.

Step 3: SPOTOUT PROTEIN

Alkaline spotter for protein stains such as food, milk, blood and faeces. Ensure that the spotter is rinsed and neutralised with Coffee SpotOut, especially on wool carpets.

Step 4: BROWNING TREATMENT

Neutralising spotter designed as a final application to neutralise the site and balance the pH in the carpet fibres to prevent browning.

Always keep the spotter within confines of the stain. Leave spotter in for three to four minutes, then rinse out.
